Biography

Mark Woodman, CMG

Mark Woodman CMG, a dynamic designer, writer and speaker, has contributed to the pages of magazines and books, the airwaves of TV and radio and the stages of exhibitions around the globe.

As owner of Mark Woodman Design & Color, a design and color consulting firm, Mr. Woodman's design work has ranged from interiors to graphics, products to hand selecting the color palettes for entire communities.

The world of color has brought him to Global Color Research, a London based, international trend and design group for product specifications, where he serves on the global trend panel, hosts the North American panel and contributes to their publications, MIX trends and MIX magazine. To further round his affiliation with the world of color, he serves as President of the Color Marketing Group, joining in the energy and research of the international meetings.

A spirited and accomplished international speaker, Mr. Woodman frequently lectures on color and design for prominent organizations such as ASID, IFDA, IDC, CMG, NKBA, 100% Design London, Heimtex Frankfurt, Surfaces, NeoCon, Decorex London and Australian Exhibitions, PTY.

"Every corner we turn offers influences for design and color," says Mr. Woodman, "from the colors in a garden to the rust on an old ship, inspiration abounds! Join me on a color journey."
